

Springwell Child Care

Fire Safety

Fire Drill Procedure

Each month on selected days, incorporating each working day of the week, a fire drill will be held.

Either a smoke detector will be set off or the fire poster will be placed in a position that the children have access to within the building.

The children, on hearing the alarm, or discovering the fire poster, will practise the fire drill routine and will be escorted to the driveway until it is safe to return inside.

Fire Safety Policy

- Provider will carry out monthly Safety Risk Assessments
- Smoke Alarms meet recommended level of protection
- Fire precautions follow guidance from The Chief Fire Officers
- Association on behalf of the Scottish Fire and Rescue Services, the Care Commission and the SCMA in conjunction with the amended Fire (Scotland) Act 2005
